The Titleist 909 D3 Driver is a 440cc, high performance titanium driver with a full pear profile that produces mid launch with low spin, balanced for trajectory and control.

The chassis features a modern shape with a Tour-proven profile to create a low and deep CG (center of gravity) for reduced spin, higher MOI (moment of inertia) and longer, straighter drives. A CNC milled face with thicker, centrally located trapezoidal rings is surrounded by thinner areas to maximize ball speed across the face. The shaped sole provides chassis strength, reduces vibration and tunes the impact acoustics for solid feel and better sound. An extended, full pear profile provides playability through a deep CG for stability while maintaining shot workability and control and an integral titanium hosel design saves weight, provides solid feel and allows for more shaft options.
